Subject: Microsoft settlement

Hello, my name is Michael Beers. I'm a hard-working friendly American male. I'll make it short. Settle the Microsoft case now. It is unfortunate in this country that success, when deemed "excessive," is so despised that we have to attempt to destroy it, to make it small again, to make it average. Pay no attention to the 2 billion dollars Mr. Gates gave to charity this year, to the stimulus his company provides our economy, and to the fact that my computer running his software is one of the most important objects in my life. Leave Microsoft alone! Leave business alone! Let the market decide whose products to buy. Keep your creepy, altruistic hands off.

Thank you. Did I make my point clear?

Michael Beers
